**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 30-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Taguchi et al (5774602). Taguchi shows a device 71 for steering a marking device 52, image acquisition unit 54 mounted on the device, see for example, embodiment shown in Fig. 11(b), image grabber as shown and display unit as shown in Fig. 15, and/or the computer display shown in Figs. 19-24. All of the claimed structure being shown, the possible intended use with an orthodontic element and a surface is given no patentable weight. As to claims 30-33, Taguchi shows a computer display and modules as shown, and further, computers inherently have many modules in order to operate. All of the actual claimed structure being shown, it is only necessary to show structure capable of functioning as claimed. It is held that the reference shown modules that are capable of functioning as claimed if programmed and used as such, and therefore, meets the claim language. Further, because the claims are directed to two different alternative embodiments, it is only necessary to show one, limitations that are disclosed as being directed to another embodiment, in this case the orthodontic element, are given no patentable weight.

***Allowable Subject Matter***

Claims 18-29 are allowed.

***Response to Arguments***

Applicant's arguments filed January 10, 2005 have been fully considered but they are not persuasive. Applicant's remarks are held to be moot in view of the newly applied reference and rejection above.

***Conclusion***

Prior art cited: Lewis et al (5294792) shows a marker.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John J. Wilson whose telephone number is 571-272-4722). The examiner can normally be reached on Monday through Thursday.
